Re: *Certain Electronic Devices, Including Wireless Communication Devices, Portable Music and Data Processing Devices, and Tablet Computers*, Inv. No. 337-TA-794

Dear Acting Secretary Barton:

On behalf of the Association for Competitive Technology, and in response to the Commission's November 19, 2012 request for written submissions on public interest issues in this investigation, we respectfully submit the enclosed copy of our comments submitted to the Commission in the 745 Investigation, which involved similar issues affecting the public interest.

In particular, this investigation, like the 745 Investigation, involves a complainant's request for an exclusion order based on the alleged infringement of a patent which the complainant has declared standard-essential and committed to license on fair, reasonable and non-discriminatory ("FRAND") terms.

For the reasons stated in the enclosed comments, we believe that the public interest would be adversely affected by issuance of an exclusion order in such circumstances. Therefore, we respectfully request that the Commission deny any such exclusionary relief in this investigation as contrary to the public interest.

Sincerely,

Morgan Reed
Executive Director
